

Course Syllabus Part II

CS 430 Software Engineering

Course Resources

Course Text:

Software Engineering; Ian Sommerville; Tenth Edition; Pearson; 2016

Required Resources:

N/A

Supplemental (not required) Resources:

N/A

Course Schedule

Note: All due dates are 11:59 PM of the day specified. (Central Standard Time - CST)

Week	Module	Assignment
1	Module 1 – Introduction to Software Engineering	Complete Syllabus Acknowledgment Read: Review Readings and Resources M1: Introduction Posting (1 Post) (10 pts) M1: Postings (1 Post & 1 Reply) (40 pts) M1: Assignment (50 pts)
2	Module 2 – Agile Software Development	Read: Review Readings and Resources M2: Postings (1 Post & 1 Reply) (40 pts) M2: Assignment (50 pts)
3	Module 3 – Requirements Engineering	Read: Review Readings and Resources M3: Postings (1 Post & 1 Reply) (40 pts) M3: Assignment (50 pts)
4	Module 4 – System Modeling	Read: Review Readings and Resources M4: Postings (1 Post & 1 Reply) (40 pts) M4: Assignment (50 pts)
5	Module 5 – Architectural Design	Read: Review Readings and Resources M5: Postings (1 Post & 1 Reply) (40 pts) M5: Assignment (50 pts)
6	Module 6 – Design and Implementation	Read: Review Readings and Resources M6: Postings (1 Post & 1 Reply) (40 pts) M6: Assignment (50 pts)
7	Module 7 – Software Testing	Read: Review Readings and Resources M7: Postings (1 Post & 1 Reply) (40 pts) M7: Assignment (50 pts)
8	Module 8 – Software Evolution	Read: Review Readings and Resources M8: Postings (1 Post & 1 Reply) (40 pts) M8: Assignment (50 pts)

Week	Module	Assignment
9	Module 9 – Software Reuse	Read: Review Readings and Resources M9: Postings (1 Post & 1 Reply) (40 pts) M9: Assignment (50 pts)
10	Module 10 – Architecture Engineering	Read: Review Readings and Resources M10: Postings (1 Post & 1 Reply) (40 pts) M10: Assignment (50 pts)
11	Module 11 – Cloud Computing & Configuration Management	Read: Review Readings and Resources M11: Postings 11.1 (1 Post & 1 Reply) (40 pts) M11: Assignment (50 pts)

Grade Breakdown/Criteria

Grade Breakdown	
Grade Component	Total Points
Discussion Introduction Forum (1 at 10 points)	10 pts
Discussion Forum Participation (11 at 40 points each)	440 pts
Assignments (11 at 50 points each)	550 pts
Total Points	1000 pts

Grades will be posted before the next week begins. You can view a summary of your grades in the Course Progress area of the course in **Grades**. Please notify your instructor as soon as possible if you see any errors in your grade summary. It is always easier to fix errors early rather than late in a course.

Discussion Board Assignments:

Main Postings:

- Main Posts are due by 11:59 PM, Day 4 (CST/CDT).
- Students are provided with a topic for their Main Postings.
- Main Postings are worth up to 20 points each.

Additional Postings:

- Additional Postings are due by 11:59 PM, Day 7 (CST/CDT).
- Students are required to have a minimum of 1 Additional Postings each week.
- Additional Postings are worth up to 20 points each.

Written Assignments:

- All assignments must be written in English.
- Students will complete Written Assignments to demonstrate comprehension of course objectives. Written Assignments are worth up to 50 points each.
- Written Assignment requirements vary from week to week so be sure to read the requirements carefully. Post or ask questions if you do not understand the requirements.

Late Work

You are expected to complete and submit your assignments on time according to the assignment requirements. Assignment due dates maintain the structure and flow of the class for all students and the instructor. It is important that you complete and submit your work on time. However, your instructors understand what it is like to be a student while also having busy lives. Communicate with your instructor as soon as possible if your work will be late, preferably before the due date. Late work may not be eligible for full points. The instructor has the right not to accept late work.

Participation

Students are expected to login often and contribute to the class on a regular basis, including posting to the discussion board, submitting assignments, and participating in group activities as required. If you have specific participation requirements related to your educational funding or student status, you are expected to monitor your own participation to ensure you are in compliance with those requirements. It is assumed that students have dropped the course if they do not participate and they do not notify the instructor in the first two weeks.

Resources

AI-based tools may be used as resources for assignments. Students must not violate copyright or intellectual property laws. When completing assignments, all resources should be cited, including AI-based tools. Resources should be used to support and validate your assignments, not to complete the assignment in total.

Expectations for Students

- Students should expect to spend approximately 12-14 hours per week to complete the activities and assignments in this course.
 - Students will log in as often as needed to complete their assignments and progress through the course.
 - Students will treat their classmates and the instructor with respect and courtesy.
 - Students are responsible for keeping current with the reading assignments and coming to class prepared to discuss the work assigned.
 - Students are responsible for knowing what assignments are due and when.
 - Students will submit only their own work and will not commit plagiarism or other acts of academic dishonesty.
 - Students will contact the instructor as soon as personal problems arise that may affect the student's ability to complete assignments on time.
-

Expectations for Faculty

- The instructor will treat all students with respect and courtesy.
 - The instructor will make grading criteria clear and follow the criteria scrupulously in evaluating student work.
 - The instructor will provide feedback about student work within 6 days of due dates (or 24 hours prior to the next due date)—feedback that helps the student learn and improve.
 - The instructor will respond to all student phone and email messages within 48 hours.
-

Communications with the Professor

Instructor contact information is in the **Instructor Info** area of the course

Good communication is always a key to success in education. Please feel free to ask general questions about the course and assignments in the discussion boards. Feel free to contact me via email with private concerns. I look forward to the class, and I look forward to working with you and your fellow students as we learn more about how this area applies to Information Systems.

Please use the discussion boards for general questions about the course or assignments. If you have a question, then it is likely other students have similar questions. A discussion posting is roughly the equivalent of raising your hand in the classroom. Tip: Start a new thread and use the word 'question' or 'help' in the subject line. If you have a personal question, suggestion, or problem to resolve, then use email to contact your instructor.
